## Principio de Energía

( Campo Uniforme )

Partícula

$$\mathbf{a}_A = \mathbf{a}_A$$

$$\int \mathbf{a}_A \cdot d\mathbf{r}_A = \int \mathbf{a}_A \cdot d\mathbf{r}_A$$

$$\int \mathbf{a}_A \cdot d\mathbf{r}_A = \Delta \frac{1}{2} \mathbf{v}_A^2$$

$$\int \mathbf{a}_A \cdot d\mathbf{r}_A = \Delta \mathbf{a}_A \cdot \mathbf{r}_A$$

$$\Delta \frac{1}{2} \mathbf{v}_A^2 = \Delta \mathbf{a}_A \cdot \mathbf{r}_A$$

$$\Delta \frac{1}{2} \mathbf{v}_A^2 - \Delta \mathbf{a}_A \cdot \mathbf{r}_A = 0$$

$$m_A \left( \Delta \frac{1}{2} \mathbf{v}_A^2 - \Delta \mathbf{a}_A \cdot \mathbf{r}_A \right) = 0$$
